Don't tell the others I'm looking at my email... had to do something on Benevity and saw this and the subject looked weird enough for me to open.

I haven't worked with Antone at all — but looks like he reports to the industrial hygienist I've been working with (Michael Steiger).

I suspect this might be because I noted you as a witness for my fainting spell with workers comp — or that I mentioned to EHS/ER I fainted in your office in 2019 and we were talking about it — otherwise I have no idea.

Ashley,

Have you met with Antone before? I got this invite and I'm not quite sure why. Do you have any ideas of why he wants to talk to me?

Thanks,
